SUMMARY

I am an ambitious, enthusiastic and talented individual with a keen eye for detail and a flair for new startups and projects. I have got an opportunity to work on a new initiative and take it from an internal project to a million dollar business. My objective is to work in a challenging work environment and to learn something new every day. I have worked in an Indian IT industry for 6.5 years before moving to Europe to pursue my passion for research and knowledge. Currently, I am pursuing my Ph.D. in “Graph Data stream mining and distributed processing” from ULB(Brussels) and UPC(Barcelona).
